Unpacking New Risks to Design & Building Practitioners and Insurers in the Construction Industry

Concerns regarding defective design and installation in the construction industry have provided the impetus for major reforms to the regulation of building professionals around Australia. Join us for a timely update on the latest developments in NSW.

DR AMER MAGRABI Principal – Fire & Risk Engineering | Lote Consulting
'The Designer's Perspective'

- Recent changes to fire engineering practice
- Typical contract deliverables
- Latest state of play with cladding and the Building Code of Australia

ANTHONY HERRON Special Counsel | Kreisson Lawyers
'The Legal Perspective'

- The Design and Building Practitioners Act 2020 (NSW) – which has introduced a duty of care regime for builders, designers, manufacturers, suppliers and supervisors
- The Building & Development Certifiers Act & Regulation NSW (1 July 2020) which provides a revised framework for compliance, conflict of interest and contracts for building certifiers

MICHAEL GIANIRACUSA CEO | Whitbread Insurance Brokers
'The Insurance Perspective'

- What insurers require to mitigate their risk exposure
- Effects on cover for building and design professionals in the Australian and UK markets

This session will be chaired by DR ROBIN BOWLEY University of Technology Sydney
