

# EMERGING TRENDS IN RADIOLOGY & MEDICAL PROCEDURES

Presented by:

**Dr Clem McCormick** | Senior Radiologist, Next Health  
**Dr Phil Hardcastle** | Next Health

Chaired by:

**Joyce Blair** | General Manager, Next Health

Join our two experts from Next Health, for a dual topic presentation regarding the emerging trends in radiology and medical procedures.

In the first half of the seminar **Dr Clem McCormick** will present '*What, Why and When of Medical Imaging*' which will deliberate on the differences of medical imaging and counsel on what test should be used for different types of injury.

The second topic will be presented by **Dr Phil Hardcastle** and is entitled '*Disc Replacement Surgery by Numbers!*'.

Currently a worker who has had a disc replacement or fusion surgery to their spine will be assessed as having over 25% whole person impairment. This is at odds with the whole person impairment without surgery and raises issues for claims management and legal defence.

The discussion will cover:

- disc replacement surgery
- the costs
- Medicare
- Equipment and materials used by surgeons for disc replacement and fusion surgery.

This seminar attracts 1 Legal Knowledge CPD point
